

## DIRECTIONS

Read each passage. Then read each question about the passage. Decide which is the best answer to the question. Mark the space for the answer you have chosen.

### SAMPLE

## Polar Bear Babies

A baby polar bear is called a *cub*. It lives in cold lands. It is born in a cozy den in the snow. Grown polar bears are enormous and have thick white fur, but a polar bear cub is tiny and hairless. It is about the size of a bunny, and it is born without any fur. Polar bear babies need lots of attention. Mother bears tend their cubs until the cubs are about two years old.

**B**

Read the sentence.

Mother bears tend their cubs until the cubs are about two years old.
