

District STAR 2009 Student Data Layout

Results for the CSTs, CMA, CAPA, and STS

-
- Two distinct student files are included on all CD-ROMs. The UIN - File Linking Number in positions 3–22 of each record can be used to join the records together so that all student information can be matched.
 - The first file contains student identification data, demographic data, and test information (including subscore data); record length 417.
 - The second file contains student identification data, accommodation and modification data, English learner test variation data, and irregularity data; record length 480.
-

Note: A file named Filler.bin is included on all CD-ROMs. Filler.bin is used by the iMAC operating system to interpret data correctly. This file will be ignored by all other operating systems.
