

Standardized Testing and Reporting Program 2009 Video Updates for the 2010 Administration

Standardized Testing and Reporting (STAR) Program videos will **NOT** be revised or reproduced for the 2010 STAR administration. You are encouraged to use the videos produced in 2009 for training. Use this document to identify which information in the videos has been updated. Information that is a *2010 Program Update* is new this year. Information that is *Not Applicable in 2010* is in the video but no longer applies to the STAR Program.

Refer to the *2010 STAR District and Test Site Coordinator Manual* for detailed information about steps to take before, during, and after administering tests within the STAR Program at your site.

Introduction and Shared Segments

Jack O'Connell

There are no updates to this video segment in 2010.

J.T. Lawrence

California Modified Assessments

*2010 Program
Update*

The California Modified Assessment (CMA) is not only administered in grades three through eight but is also available for eligible students in grade nine for English–Language Arts (ELA), grade 10 for life science, and grades seven through eleven for Algebra I.

*Not Applicable in
2010*

“The CMA is administered in grades three through eight. “
While this is true, there are more grades and subjects than mentioned in the 2009 video.
